

PROVISIONING THE WORKSPACE

```
-----
cloud_android ready    volume vol-582389e9
container      ready    volume vol-582389e9-svc
the android instance and the container are separate workloads on the same host
```

OWNER INSTALLS APPS ON THEIR OWN DEVICE AND LOGS IN

```
-----
facebook      com.facebook.katana      logged in as Ocean View
Bistro
google_business com.google.android.apps.business logged in as Ocean View
Bistro
yelp          com.yelp.android.biz      logged in as Ocean View
Bistro
```

what each app is mapped to carry:

```
facebook      ["hours","contact.phone"]
google_business ["hours","contact.phone"]
yelp          ["hours"]
```

OWNER CHANGES HOURS ONCE, IN ONE PLACE

```
-----
owner set hours to 07:00 - 22:00. nobody told the platform where to put it.
```

draining the outbox...

```
facebook      route android succeeded verification: verified
google_business route android succeeded verification: verified
yelp          route android succeeded verification: verified
```

WHAT EACH APP NOW SHOWS (read off the screen, not assumed)

```
-----
canonical: {"opens":"07:00","closes":"22:00"}
facebook    {"opens":"07:00","closes":"22:00"} in sync: true
google_business {"opens":"07:00","closes":"22:00"} in sync: true
yelp        {"opens":"07:00","closes":"22:00"} in sync: true
```

sync state per app per key:

```
facebook      contact.phone DRIFTED
facebook      hours      in sync
google_business contact.phone DRIFTED
google_business hours      in sync
yelp          hours      in sync
```

YELP MOVES A FIELD (the map no longer matches the app)

result: failed, verification: failed
 repair queue: yelp – no field "from" on screen
 failing step: {"type":"07:00","into":"from"}
it did not guess, and it did not report success.

OWNER OPENS THE LIVE SCREEN FROM THEIR DASHBOARD

 session control, stream /stream/cff692f1-cd15-4451-ba5e-c555827925ba?
t=aa3efcef86378669ac8daa75a44b33de
 app in the foreground: com.yelp.android.biz
 fields visible: {"Business Info":1,"Hours of
Operation":1,"Update":1,"to":"22:00","start_time":"07:00"}
 same instance the automations drive, not a copy

THE BUSINESS MCP SURFACE

ghost:ocean-view
